Passion for Elegant Engineering

Software engineer, mathematician, music composer, and gamer. Published author in mathematics. Great work ethic, independent thinker, creative problem solver, lover of refactoring—pride myself on clean DRY code. Love working on teams, especially new teams and learning how other people approach problems. Seeking software engineer position which emphasizes learning, team building, professional growth, and pushes my problem solving capabilities to the limit.

Experience

Shrimpton Agency, New York, NY

December 2016 – Present

Freelance Developer

Centro39 – www.centro39.com – *Polished off the frontend of the new website, built in Shopify. Technologies included HTML, scss, and CoffeeScript.*
